

Download 21 Super Simple Chemistry Experiments

Perfect for Home and Classroom With common household ingredients and a mason jar, kids can discover the secrets of chemistry, earth science, botany, biology, and physics in their own home science labs with 40 intriguing experiments. My 5 year old son has had a blast with this kit. The experiments are simple and very fun. There are some very cool super-absorbent materials that you work with and the play with colors is fantastic. Rolling, bouncing, racing, zipping, squishing, and more! Physics is fun, and these simple physics activities are perfectly playful physics for kids! Whether you are exploring laws of motion, sound waves, or light, physics is everywhere! Make sure to check out all of our simple science experiments. Learn and research science, chemistry, biology, physics, math, astronomy, electronics, and much more. 101science.com is your scientific resource and internet science PORTAL to more than 20,000 science sites.
