

Download Cabling The Complete Guide To Copper And Fiber Optic Networking

Copper or Fiber? What's the real story? (Here is a specific look at fiber vs copper in LANs) Every time we read another article about copper and fiber cabling that was written by someone who was either ignorant or prejudiced - or both - it is full of pure, unadulterated garbage. The Fiber Optic Association. User's Guide To Fiber Optic System Design and Installation Structured cabling solutions provide an organized, standardized approach to enhancing network infrastructure with category and fiber cabling. The Fiber Optic Takeover. Fiber optic networking is slowly replacing copper as the standard for high speed data transfers. While fiber has the disadvantage of requiring more expensive equipment and training, the extra expenses are well worth the monumental gains in speed and efficiency.
