Changing frontiers in the science of psychotherapy. [Allen E Bergin; Hans H Strupp] [Allen E Bergin; Hans H Strupp] Your Web browser is not enabled for JavaScript.Presents an exploration and mapping of the frontiers of research in psychotherapy. This title introduces the reader to therapeutic science as it appeared to the authors during a three year process of evaluating available literature, conducting interviews with scientists and therapists, and exchanging and formulating viewpoints.The authors make a systematic effort to discover where the science is going; analyzing conceptual problems, trends, and issues; record their interviews with the leaders in the field; and recommend new directions for research. The volume is the result of a three-year study on collaborative research in psychotherapy by the National Institute of Mental Health, and was first published in 1972.changing frontiers in the science of psychotherapy Download changing frontiers in the science of psychotherapy or read online here in PDF or EPUB.
