

# Download Directed Section Viruses Answers

Teacher comments: Middle school teacher: Kids love "games"! Use an incentive like a piece of candy or pencil, etc. and you'll double the attention level. Viruses are very small organisms; most can't even be seen with an ordinary microscope. They are made up of a small number of genes in the form of DNA or RNA surrounded by a protein coating. This exam includes some parts all of the quizzes I offer but you may purchase separately if desired. [These answers are not intended to create significant new guidance or require any changes to previously accepted labeling. The Agency will contact registrants directly about how to correct problematic labels as appropriate.]
