200 years before the birth of Miles Vorkosigan, engineer Leo Graf encounters the Quaddies, who are genetically engineered to have an extra pair of arms in place of legs in order to work better in free-falling environment of space. This list is meant to assist, not intimidate. Use it as a touchstone for important concepts and vocabulary that we will cover during the term. When a character has a number as a name. Usually this carries dehumanizing implications. This can be for (at least) two overlapping reasons: The character is a construct or robot, whose creators regard it as non-sentient (or at least did when they were handing out names).
