

Download Fighting Colors Creation Military Aircraft

The General Dynamics F-16 Fighting Falcon is a single-engine supersonic multirole fighter aircraft originally developed by General Dynamics (now Lockheed Martin) for the United States Air Force (USAF). Welcome to the Military Gallery, publishers of Robert Taylor, Nicolas Trudgian, Simon Attack, and other leading aviation, marine, and military artists. Placing personalized decorations on fighting aircraft began with Italian and German pilots. The first recorded piece of nose art was a sea monster painted on an Italian flying boat in 1913. Unique to this latest edition is the creation of an accompanying website that will serve to keep the book current and provide valuable supplementary material, as well as an improved organization that better fulfills the dual roles of "primer" and reference.
