You have been redirected to our new site. We've updated our site, and all our old links are unavailable. If you're searching for information about our on-campus services, please visit the Writing Lab's page. Planck's law describes the spectral density of electromagnetic radiation emitted by a black body in thermal equilibrium at a given temperature T , when there is no net flow of matter or energy between the body and its environment. Folklore has long held that most babies are born in the late night or very early morning and recent (2018) research has found this to be correct in the U.S., but only for babies born at home or on Saturday or Sunday.
