Going Faster! reveals the collective racing wisdom Skip Barber Racing School instructors have accumulated over the past 25 years. The hard-won knowledge of dozens of championship-winning race drivers-invaluable insights collected throughout their own careers-is distilled into a clear, understandable, organized progression. I haven't read them all, but this is certainly my favorite book about the techniques and principles of race driving. I read it when I first did a Skip Barber class in 2007, and again before a lapping day in 2009. Going Faster! is more than just a primer covering the basics. The hard-won knowledge of dozens of championship-winning race drivers-invaluable insights collected throughout their own careers-is distilled into a clear, understandable, organized progression. This book is about how the best drivers in the fastest, most sophisticated racecars use advanced race driving techniques-the difference between competence and brilliance.
