Author: sidecar Hard hot starting with S&S Super E carburetor Post by sidecar on Sept 17, 2002, 2:54pm I removed the bendix carb from my 48 and put an E carb on it. King, I've run a mouse trap for 30 years and earlier on the book measurements were pretty close, but after changing out the arm and rod I've found I can no longer get the measurement they tell you to. this exam includes some parts all of the quizzes i offer but you may purchase separately if desired. [1994 Yamaha Virago 1100cc air cooled V Twin motor with only 31k pampered miles. New tires, battery, plugs, and recent tune-up. This is a perfect running bike, fast, loud, and road ready.
