Wow dit ga ik zeker uitproberen! heb van mezelf nogal droog haar en het groeit slecht, ik eet al veel gezonder dan vroeger en neem elke dag 2 smoothies maar wil nog niet zo groeien. Hair is a protein filament that grows from follicles found in the dermis. Hair is one of the defining characteristics of mammals. The human body, apart from areas of glabrous skin, is covered in follicles which produce thick terminal and fine vellus hair. A hairstyle, hairdo, or haircut refers to the styling of hair, usually on the human scalp. Sometimes, this could also mean an editing of facial or body hair.
