Laminated quick reference card showing step-by-step instructions for the Teams and Groups features of Office 365. The two main apps covered in this ... Vijai Anand Ramalingam is a Microsoft MVP in Office Servers and Services, an experienced senior consultant with deep knowledge in SharePoint. He is a blogger, author, speaker and has published 1000 blogs/articles on C# Corner. The launch of Microsoft Office 365, a cloud based Microsoft Office Suite, brought with it with different services and features which could benefit enterprises in productivity and collaboration including Exchange Online (a hosted messaging application) and then for a smarter communication system, SharePoint Online and Skype for Business Online. A new 'experience' was added to Microsoft Teams which allows you to create a Teams Tab that surfaces a SharePoint list and it's pretty nice.
