Academia.edu is a platform for academics to share research papers. Glycolysis (from glycolysis, an older term for glucose + -lysis degradation) is the metabolic pathway that converts glucose $C_6H_{12}O_6$, into pyruvate, $CH_3COCOO^- + H^+$. A telomere (/ˈtɛl.əˈmɪər/ or /ˈtɛl.əˈmɪ.ər/) is a region of repetitive nucleotide sequences at each end of a chromosome, which protects the end of the chromosome from deterioration or from fusion with neighboring chromosomes.
