

Download Mazes For The Superhero Brain

The human brain is a marvelous thing indeed. It feeds off challenges, it lives for problem solving, it needs brain-teasers to get the juices rushing! Some were missing the little balls to actually play the maze. Most likely due to the cardboard backing not being put on correctly on them. Otherwise very good, especially for the price. I can't tell you how excited I am... February's going to be BIG!! There are 28 days (plus an extra for leap year this year) pack-filled with hands-on STEM activities for kids. Free special education, occupational and physical therapy printables, forms, and activity ideas.
