

Download Planning Local Economic Development Theory And Practice Pdf

Economic planning is a mechanism for the allocation of resources between and within organizations which is held in contrast to the market mechanism. INTRODUCTION Development has meant many things, depending on the era and context. For the scope of this paper, development refers to economic growth that leads to increased standard of living. Structuralism is a development theory which focuses on structural aspects which impede the economic growth of developing countries. The unit of analysis is the transformation of a country's economy from, mainly, a subsistence agriculture to a modern, urbanized manufacturing and service economy. The Master of Urban Planning and Development (MUPD) program equips urban planning and development professionals with the knowledge and skills to effect positive change for diverse and dynamic metropolitan regions and communities.
