IEEE membership offers access to technical innovation, cutting-edge information, networking opportunities, and exclusive member benefits. Members support IEEE's mission to advance technology for humanity and the profession, while memberships build a platform to introduce careers in technology to students around the world. The 21st International Symposium on Research in Attacks, Intrusions, and Defenses (RAID 2018), previously known as Recent Advances in Intrusion Detection, aims at bringing together leading researchers and practitioners from academia, government, and industry to discuss novel research contributions related to computer and ... In general, software engineering focuses more on techniques for the application of software development in industry, while computer science focuses more on algorithms and theory. SAX is the first symbolic representation for time series that allows for dimensionality reduction and indexing with a lower-bounding distance measure.
