

Download Rice Research And Management In India 2 Parts 1st Edition

Agriculture is the cultivation of land and breeding of animals and plants to provide food, fiber, medicinal plants and other products to sustain and enhance life. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. AfricaRice is a leading pan-African rice research organization committed to improving livelihoods in Africa through strong science and effective partnerships. AfricaRice covers 24 member countries across Africa. AfricaRice is a CGIAR Consortium Research Center. Citing and more!
