

# Download The Encyclopaedia Of School Stories

Encyclopaedia: Encyclopaedia, reference work that contains information on all branches of knowledge or that treats a particular branch of knowledge in a comprehensive manner. For more than 2,000 years encyclopaedias have existed as summaries of extant scholarship in forms comprehensible to their readers. The word The Encyclopædia Britannica (Latin for "British Encyclopaedia"), formerly published by Encyclopædia Britannica, Inc., is a general knowledge English-language encyclopaedia. The short story is usually concerned with a single effect conveyed in only one or a few significant episodes or scenes. The form encourages economy of setting, concise narrative, and the omission of a complex plot; character is disclosed in action and dramatic encounter but is seldom fully developed. Britannica's differentiated learning stood out for us, as well as the huge range of content that is available. Lesley Harrison, Librarian, St. Helen's School
