shipping on qualifying offers. Here's a task for you: try to guess who Madam Pele is out of all the goddesses

included in this coloring book. Coloring will help improve hand to eye coordination You can't stop lava from

Hawaii's Kilauea volcano with water, bombs or walls. Here's why. Lava isn't like water, snow or mud. It's liquid

rock, so it's heavy, sticky and moving underground. Legends. Kilauea is a currently active volcano that is

located on the island of Hawaii and is still being extensively studied. Many Hawaiians believe Kilauea to be

inhabited by a "family of fire gods", one of the sisters being Pele, who is believed to govern Kilauea and is

responsible for controlling its lava flows.
