Higher level vocational education and training (VET) programmes are facing rapid change. Such lists are indicative only, and are really a list of categories of teaching activity, since how each is undertaken may vary widely not only between academics but within the everyday practice of any one academic, depending on the focus of the teaching and the intended learning outcomes for the students.  
Introduction. The process of health and illness of a society is the result of the interaction between factors associated with social, economic, cultural, environmental and political, so a complex process that requires intersectoral action.
